CONTA-CLIP: thinking ahead for connection systems

CONTA-CLIP was founded in 1977. We operate globally as an owner-operated medium-sized company.

Users of electrical and electronic connection systems rely on our reliable products and our many years of industrial and global market expertise.

Our company is now one of the most important manufacturers in the field.

For over 40 years, our components and solutions have been used in various process and industrial automation applications, including: railway technology, materials handling, building automation, air conditioning, mechanical and facility engineering, measurement and control technology, control panel construction, shipbuilding, transformer construction and environmental technology.

Over the years, we have evolved into an innovator that sets the tone with new ideas and creative impulses.

Our employees come from a wide variety of industries and view themselves as true connectivity specialists. They understand the specific problems, requirements and challenges of our customers. This results in communication among equals.

The profits then flow into the development of new products as well as into modern, efficient manufacturing processes.

A high quality standard throughout all departments is our number one priority.

Our top-class products are supported by this interplay between top-class men and machinery. We have also designed our range of services to align with customer needs.

Our products are divided into six categories: CONTA-CONNECT for terminal blocks and accessories, CONTA-ELECTRONICS for electrical and electronic control cabinet components, CONTA-LABEL for marking systems, Cable Management Systems, CONTA-BOX for housings and CONTA-CON for PCB terminal blocks and connectors.

We design customer-specific solutions for electronics, provide completely assembled housings and assemblies as needed, assemble terminal blocks for series production, and quickly handle component labelling tasks.

We greet these challenges with passion and enthusiasm, because we see each customer as our partner.

CONTA-CLIP customer representatives are always ready to offer their support to the customer, because service and helpfulness are rooted deeply in our corporate philosophy.

Advantage online: the CONTA-CLIP Online Catalogue

No matter where you are, as long as you're on-line you can access our digital catalogue to look at our services and quickly identify suitable solutions for your requirements.

Fast results Use the full-text search, enter an order number or use the convenient "step-by-step" feature search function.

Project planning at a glance: After you've selected the products, all the master data for the materials (sales data, technical data, drawings, connection diagrams, classifications and approvals) are made available as a data sheet or export file.

Detailed inquiries about components can be sent via the shopping cart directly to our headquarters. Upon request, you will receive an e-mailed copy of your inquiry.

Application films: Complex functions be explained easily and clearly with sounds and images.

Printed catalogue: Would you like an offline overview? Please ask for our free printed catalogues.

Industry-specific: You will find the solutions that are relevant for your industry, according to your expertise.

Newsletter: Do you want to stay up to date? Subscribe to our newsletter! Simply register, confirm our authentication e-mail, and you'll be regularly informed about all CONTA-CLIP news.

Discover how the world of CONTA-CLIP and our website can deliver added value for you and your projects!

Globally available for you

Are you working abroad? No problem. Our worldwide sales and distribution partners help us to be globally networked and provide on-time reliable deliveries. Simply scan the QR code shown and you'll learn on our website about the sales partner responsible for your country.

A complete line of products to meet your demands

The CONTA-CLIP Catalogues

01 CONTA-CONNECT

Terminal blocks with Push-in connection system

Our wide range of innovative PRK and FRK terminal series with the Push-in connection system include feed-through terminals, PE terminals, disconnect terminals, fused terminals, multi-level terminals, installation terminals and initiator terminals, for conductor cross-sections from 0.2 mm² to 25 mm².

Cat. no. 98070.2

02 CONTA-CONNECT

Terminal blocks with screw connection system and special terminals

Everything for classic wiring with screw connection systems (also for high currents): SRK feed-through and PE terminals, RK high-temperature variants, TK transformer terminals, HSK high-power stud terminals, SVB series screw distributor blocks, and the modular feed-through terminal systems from the SDK series.

Cat. no. 98071.2

03 CONTA-CONNECT

Terminal blocks with tension-spring connection system

Our versatile line of terminals with tension spring connection systems for conductor cross-sections from 0.2 mm² to 16 mm² includes: the ZRK/ZSL series of feed-through and PE terminals, the double-level ZRKD/ZSLD, the ZIKD three-level terminal blocks, motor-connection terminals, (blade-) disconnect terminals, fused terminals, direct-mount terminals, and initiator/actuator terminals for transmitting positioning, encoder and alert signals.

Cat. no. 98072.2

04 CONTA-CONNECT

Installation materials and other accessories for terminal blocks

Our installation products include cabling ducts, assembly tools, cable glands with metric or PG threads, DIN rails, DIN rail cutters and punching tools. The terminal block accessories include different versions of end stops, wire-end ferrules, and connectors.

Cat. no. 98073.2

05 CONTA-LABEL

Marking components for thermal transfer marking systems

CONTA-CLIP provides the TTPCard thermal-transfer printer and a large selection of PC, PVC and PVCF markers or labels in card format: for professional, permanent labelling of terminals, devices, conductors, cables, facilities and switchgear cabinets.

Cat. no. 98074.2

Our catalogues are available in many languages!

06 CONTA-LABEL

Marking components for ink-based marking systems

The CONTA-LABEL products provide polyamide markers for labelling conductors, cables, devices and facilities with ink print. These markers are available in many shapes and colours: in the classic MC Maxicard format for self-printing with the EMS plotter system EMS or other ink-jet systems, or ready-to-use customized printed in the PMC Pocket-Maxicard format.

Cat. no. 98075.2

07 CONTA-BOX

Housings

Our wide variety of housings made of polystyrene, polycarbonate, polyester, ABS and aluminium deliver solutions for protecting electronic circuits, integrated devices and terminal blocks. On request, the housings can be provided with extensive processing and assembled with our CONTA-CONNECT, CONTA-ELECTRONICS and CONTA-CON product lines.

Cat. no. 98076.2

08 CABLE MANAGEMENT SYSTEMS

KDS cable entries , KES cable entries, SAB|SSAB|SABK shielding solutions

The KDS and KES cable entries enable a tool-free, IP66-sealed feed-through for unassembled and assembled cables and hoses. The feed-through openings can be adapted at any time to meet your requirements. The SAB shield-connection clips can be used to provide a reliable shield contact with conductor diameters from 3 mm to 35 mm.

Cat. no. 98077.2

09 CONTA-ELECTRONICS

Electrical and electronic cabinet components

Our CONTA-ELECTRONICS products provide active and passive components for the transfer and conversion of analogue and digital signals at the coupling level. This product line includes power supplies, multi-function timing relays, coupling relays, digital switching modules, interface modules, opto-couplers, signal converters, GSM communication modules and much more.

Cat. no. 98078.2

10 CONTA-CON

PCB terminals and connectors

This catalogue presents our wide variety of CONTA-CON PCB terminal blocks and connector systems. The modular components can be configured for any required number of poles; They are available in the wire connection types: wire protection, eccentric, clamping yoke, and (for demanding operating conditions) with tension-spring or Push-in wire termination.

Cat. no. 98079.2

Cabling ducts VK

As part of our installation materials portfolio, **CONTA-CLIP** delivers a wide range of cabling ducts suitable for many different applications. These ducts have excellent dimensional stability. They also feature tight fitting covers which are easy to snap on and off. The pegs have pre-determined breakage points so that the cabling ducts can easily be modified for your cabling. They are available in various sizes and in a halogen-free version.

Material: Rigid lead-free PVC, flame retardant, in accordance with UL 94 V-0, self-extinguishing, thermally stable

- a** Optimally fitted cover
- b** Wire retaining lugs
- c** Pre-determined breakage points on the pegs
- d** Stamped out with no burrs

Features

- Optimally fitted cover is easy to put on and take off
- Pre-determined breakage points on the pegs
- Holes in the base in accordance with DIN EN 50085-2-3; the punched layout is identical for each length
- Stamped out with no burrs: so the installer cannot be injured and the cable cannot be damaged
- Delivery length: 2 m, including cover
- Customized lengths: on request
- 90° cover contour
- Colour: grey (RAL 7030)

Cabling ducts VK

- Material: Rigid lead-free PVC, flame retardant, in accordance with UL 94 V-0, self-extinguishing
- Temperature resistance: -15 °C to +60 °C

Halogen-free cabling ducts VK-HF

Halogen-free cabling ducts are often installed in sensitive areas and public buildings such as in airports, railway stations, office buildings, high-rise buildings and hospitals. The halogen-free plastic used by **CONTA CLIP** is compliant with VDE 0472 part 815 and generates no toxic gases when burned. Thus, it meets the special requirements for these applications.

The pegs and the duct base have pre-determined breakage points so that the cabling ducts can easily be modified for your cabling.

Material: Halogen-free plastic in accordance with VDE 0472, part 815 No toxic gases in event of fire Fulfils the requirements in F2 and I3 of the NF F 16-101 Railway Standards.

- a** Optimally fitted cover
- b** Wire retaining lugs
- c** The pegs and the duct base have pre-determined breakage points
- d** Stamped out with no burrs

Features

- Optimally fitted cover is easy to put on and take off
- The pegs and the duct base have pre-determined breakage points
- Partitioning pegs can also be used
- Holes in the base in accordance with DIN EN 50085-2-3; the punched layout is identical for each length
- Stamped out with no burrs: so the installer cannot be injured and the cable cannot be damaged
- Delivery length: 2 m, including cover
- Customized lengths: on request
- 90° cover contour
- Wire retaining lugs, starting with 60 mm height
- Colour: grey (RAL 7035)

Cabling ducts VK-HF

- Material: Halogen-free plastic in accordance with VDE 0472, part 815
- No toxic gases in event of fire
- Temperature resistance: -25 °C to +70 °C

Special features:

- 90° cover contour
- Wire retaining lugs, starting with 60 mm height
- Colour: grey (RAL 7035)

Tools for cabling ducts

Wiring channel cutter

The VK-S cabling duct cutter is a tool for manually cutting cabling ducts of up to 125 mm in width. The tool can be attached to a work bench or mounted at a workstation.

Features:

- 90° precise-angle cutting
- Quick, quiet and burr-free cutting
- Minimal force needed for the cut
- Maintenance-free
